Amplify Leadership Development with:

## PowerAmp™ Coaching

May 13, 2021

9:00 am - 10:00 am

### Let's talk about it...

“Amplify Leadership Development with PowerAmp™ Coaching”

How can organizations accelerate the development of emerging leaders, high potentials and first-time managers in a rapidly changing business landscape? Mid-level leaders who are responsible for developing these rising stars are faced with the complexity of time. They are focused on communicating and collaborating across the organization and balancing current operational demands with positioning the organization for long-term success. They mean well, however, they and their organizations need a different solution to fast track these emerging leaders from diverse backgrounds.

Coaching has become the development tool of choice for increased performance results, employee satisfaction, retention and succession planning initiatives.

Join us for our webinar, “**Amplify Leadership Development with PowerAmp™ Coaching**”, an innovative coaching solution designed to deliver measurable results, with a scalable model, and a greatly enhanced ROI.

In this session, you'll learn:

- How to eliminate the risk from coaching by first identifying those with the most potential to gain from the program, then by maintaining constant communications with participants to ensure they are practicing between sessions?
- How Artificial Intelligence can be leveraged to help the coaching experience become more expeditious and effective?
- What are the benefits of state-of-the-art, scientifically designed assessments and how they impact skills focus and performance measurement?
- How to make professional development and coaching accessible and affordable to all levels of an organization with the transparency and targeted growth that proves the ROI of each coaching relationship?

What if *everyone* on your team had access to a coach?
