Turnover! It costs organizations a lot of time, money and production loss. How can we reduce these three impacts while also simplifying the attraction and retention process?

In this workshop, you will learn three important principles from an international human resources expert who has applied them to simplify recruiting and retention and improve results. We will discuss "How the Manager Makes the Weather" and "Red Flags" as well as other insights to simplify the attraction and retention of employees. Intrigued? Want to improve your human resources operation?

Join us for a highly interactive session that will inspire you and fill your tool box so that you, too, can hit the ground running with an improved process.

Guest Speaker - Albert Almanza

Albert is an HR Executive with 20+ years of experience working at EY, Accenture, Dell, Apple and Mission Solar Energy. He has experience in employee relations, performance management, leadership/employee coaching, L&D, talent acquisition, policy administration, diversity and inclusion. He exemplifies a strong influencer and collaborator for business through strategic focus and hands-on leadership. He is accustomed to communicating in both Spanish and English with diverse workforces around the globe. Albert holds a Bachelors of Business Administration and is a certified PowerAmp™ Coach and Coaching Mindset Index Practitioner.
