If your year has been like many others, 2021 has been full of challenges. It is time to take a breather and consider what we have learned, what we did well, and what we want for next year. A wise person, unknown, said, "Use your past to fuel your future." That is exactly what we will learn to do in this exciting workshop. You will be introduced to tools to consider important learning from the past and plan for an even more exciting and positive future. These tools will help you to look at your life experiences holistically and begin to plan your path rather than allow "things to happen to you."

Get your future unstuck from your past and move forward in a dynamic way. This is a workshop that you will want your team, colleagues, and friends to attend. Feel free to invite anyone you know from anywhere in the world. Let's close out our 2021 workshop series with a bang!

Guest Speaker - Linda Farley Senior Consultant Greene and Associates, Inc.

Linda M. Farley is an accomplished instructional designer, learning facilitator and performance improvement coach. She has extensive experience in developing and facilitating courses for processes and technical training as well as soft skills for a variety of industries. She was chosen by the U.S. Air Force Personnel Centers, the U.S. Forest Service, and the City of San Antonio to train their training staff. Previously she ran a \$16M retail business for AT&T and held positions of Staff Human Resources Manager and National Training Manager.

As Senior Consultant with Greene and Associates she has led the way in creating innovative virtual workshops and a variety of other personnel development initiatives.
