

# ROCK YOUR COACHING STYLE

How effective are you when you are coaching your employees?  
Does your coaching style create the impact that you expect?

In this four-hour virtual workshop you will focus on the evolving role of leaders in today's market. In the past, good leadership involved managing and supervising employees. Today's employees require more. They want a leader who partners with them in achieving the best results as well as the most satisfying careers. They want a great coach. As leaders develop their coaching skills, they must identify their style of coaching and what works best with each individual employee.

In this workshop participants will:

- Identify their individual coaching style with a researched assessment.
- Learn more about what coaching is, as a front-line leader.
- Understand the six powerful strategies for improving coaching outcomes.
- Practice flexing their coaching style to support individual coaching needs.

*This workshop is designed for entry level supervisors, seasoned managers and leaders who want to continue to improve their skills and support the success of their teams.*

PAST PARTICIPANTS RECOMMEND *ROCK YOUR COACHING STYLE* ... because it would help them learn how to be a better manager for their team  
...it was well focused and keyed on some real-world concepts and approaches that would be beneficial to anyone who leads people in the workplace.  
...very informative. Sharing feed back, Setting goals, finding solutions so every one can work happy.  
... it helps align fairly simple concepts into a logical thought structure to deploy.
